

ML/TF risk relevant to the provision of the designated service for the purposes of determining whether, and to what extent, it should verify the identity of any of the individuals referred to in subparagraph 4.11.6(1).

*Verifying officers and agents of non-natural customers*

4.11.9 An AML/CTF program may provide for an agent of a customer who is a non-natural person to be identified by the customer's verifying officer, provided the requirements in paragraphs 4.11.12 to 4.11.13 are met.

4.11.10 In so far as:

- (1) an AML/CTF program provides for an agent of a non-natural customer to be identified by a verifying officer; and
