

reporting entity through the use of reliable and independent electronic data from at least two separate data sources.

### **Part 4.3                      Applicable customer identification procedure with respect to companies**

- 4.3.1    In so far as a reporting entity has any customer who is a domestic or a foreign company, an AML/CTF program must comply with the requirements specified in Part 4.3 of these Rules.
- 4.3.2    An AML/CTF program must include appropriate risk-based systems and controls that are designed to enable the reporting entity to be reasonably satisfied, where a customer is a company, that:
